

CIRCUIT BUILD LOG

One build per sheet

Project

Build / revision

Date

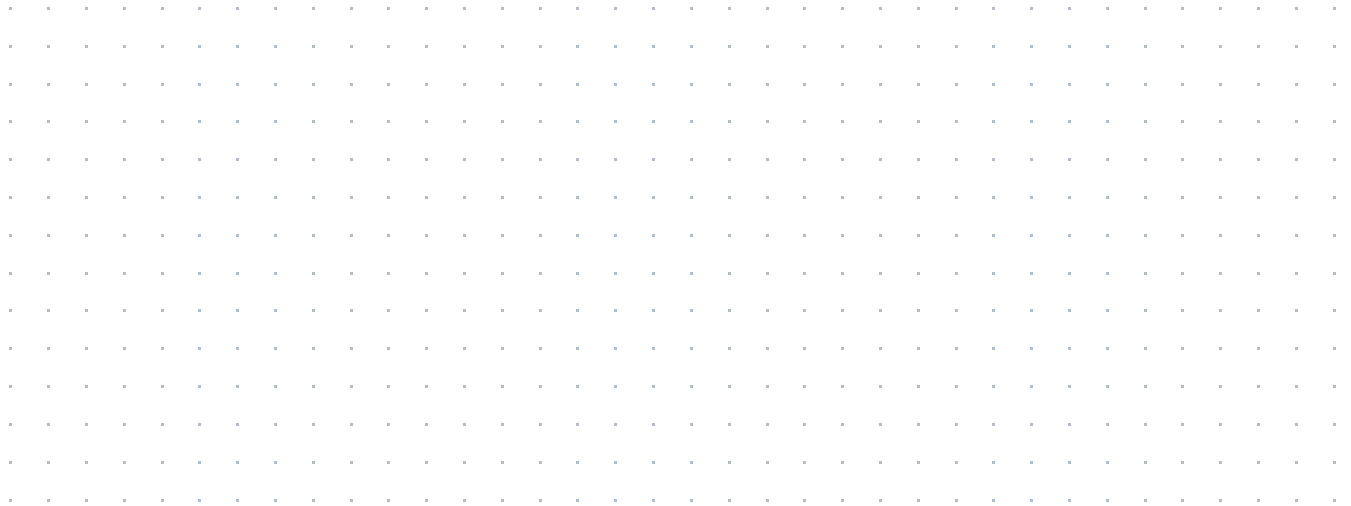

Built by

Supply

Built on (breadboard, stripboard, PCB)

Goal: what will it do when it works?

Circuit sketch (or tape a printed schematic here)

Build steps

#	What I did	What I saw or measured	OK

First power-up

- ☐ Supply set to _____ ☐ Current limit _____ ☐ Current drawn _____
☐ Polarised parts checked (diodes, LEDs, electrolytics) ☐ Nothing hot after one minute

Notes and next time
